Objective

Passionate about impacting healthcare through data analysis. Seeking an opportunity where I can utilize analytics to derive insights to improve healthcare.

Education

UNIVERSITY OF NORTH CAROLINA AT CHAPEL HILL | EXPECTED MAY 2020

MASTER OF PROFESSIONAL SCIENCE

BIOMEDICAL AND HEALTH INFORMATICS

- Related coursework: Introduction to the U.S. Health System, Financial Accounting, Introduction to database concepts and applications, Programming for Information Professionals (Python), Electronic Health Records, Professional Communication-Writing

Skills & Abilities

ANALYTICAL AND PROBLEM-SOLVING SKILLS

- In my role within the Digital Patient Unit, I maintained a department experience database and identified success measures. I created reports and presented metrics to the Vice President of my business unit. In my current role, I utilize my problem-solving skills daily to manage competing priorities and lead my team through challenges.

COMMUNICATION

- I demonstrate my strong communication and interpersonal skills as the primary liaison between sponsors, vendors, numerous functional areas, and investigative sites. Additionally, I produce monthly reports and presentations for senior management and external stake holders.

LEADERSHIP

- In my current role, I serve as mentor to junior team members and incoming project managers. In my previous role as Associate Project Manager, Digital Patient Unit, I was a subject matter expert within the company and externally. I gave presentations at various conferences focused on digital health.

MANAGEMENT

- As part of managing a global team, I identify potential risks, evaluate any issues, interpret data, develop contingency plans, and implement solutions to ensure successful completion of my projects.

Experience

PROJECT MANAGER | PPD INC. | 2014-PRESENT

- Monitor and analyze project status to ensure successful completion of project milestones.
- Develop, implement, and evaluate study plans, processes, and timelines.

MULTIPLE | QUINTILES INC. | 2007-2014

- Collaborated cross functionally with creative team, digital strategy team, IT, and vendors to carry out scope of projects.
- Developed technical specifications and conducted QC of clinical systems and web tools.
